

## INCOMAR

### A LEGACY OF AEROSPACE INNOVATION

#### ABOUT

**Incomar Aerospace and Defence Systems**, a dynamic and privately owned enterprise, is known for its precision and innovation in aerospace solutions.

With a 24-year legacy, Incomar continuously expands its product development and flight operations capabilities while fostering global relationships.

Holding AS9100D accreditation for Design and Development and Flight Testing, Incomar serves clients worldwide with unwavering integrity.

#### CHALLENGE

Incomar secured contracts for weaponry equipment design from Middle Eastern firms.

Key professionals were relocated to the United Arab Emirates to facilitate cross-border collaboration.

#### SOLUTION

Implementing **SOLIDWORKS 3D CAD Professional and Premium**; **SOLIDWORKS Electrical**; and **SOLIDWORKS PDM**.

#### RESULTS

- SOLIDWORKS swiftly and accurately transformed their concepts into reality.
- Incomar consistently met their production targets.
- SOLIDWORKS PDM ensured designs were shared promptly and accurately, enhancing traceability.

**Design collaboration across borders is now effortless, thanks to SOLIDWORKS.**
