

## NAMPAK

### OVERCOMING PACKAGING-DESIGN OBSTACLES

#### ABOUT

**Nampak** is Africa's top packaging manufacturer, listed on the JSE.

With 19 sites in South Africa (contributing 68% to revenue) and 14 in Africa (32% of revenue), Nampak focuses on innovation and sustainability.

It has a cutting-edge R&D center in Cape Town, aiding global FMCG clients.

Committed to eco-friendliness, Nampak leads in recycling and sustainable products.

#### CHALLENGE

Nampak faced design challenges due to SOLIDEDGE's limitations and a shortage of skilled users.

This hindered their progress in adopting advanced design techniques and accessing the latest technology, specifically in the Western Cape.

#### SOLUTION

Implementing **SOLIDWORKS 3D CAD Professional** with **SOLIDWORKS PDM Standard**.

#### RESULTS

- Improved design capabilities for more creative solutions.
- Optimised operational processes leading to increased efficiency.
- A secure data management system that ensures reliable access to critical design information.
- Reinforced its packaging leadership.

**We're no longer constrained by SOLIDEDGE's limitations. SOLIDWORKS opened up new possibilities for us.**
